In 1856, Giuseppe Sambonet, a Fine Arts graduate and the son of a nobleman from Vercelli, obtained his warrant as Master Goldsmith and established the company, Giuseppe Sambonet, depositing his seal bearing the initials "GS" at the Turin mint.
At the beginning of the twentieth century his company was the official purveyor to many nobles, including the Duchess of Genoa and the Count of Turin.
Always in step with the times, Sambonet has stood out for its progressive spirit in the production field. It is the first in Italy to have a system capable to add to a massive silverware the electroplating process.
Already by 1938, Sambonet started developing sophisticated industrial technologies to produce stainless steel, making its way to the silver plating process.
In 1947, it started producing stainless steel knives and blades using its own technology. It conquered the international market in 1956, by being chosen – among 53 competitors – to supply the Cairo Hilton Hotel with a hollowware line that is still in its collection today. This marked the beginning of the company's great tradition of supplying world-class hotels and restaurants.
Starting from the Sixties, Sambonet began a series of collaborations that would have lead to collections that affirm and spread the company's focus on design.
Roberto Sambonet, in particular, created collections of primary importance, such as the "Pesciera", the "Center line" and "Linea 50" trays that can be admired at the MoMA in New York.

From Compasso d'Oro ADI obtained in 1994 with Hannah flatware to Good Design and Wallpaper Design Award for Gio Ponti collections, and Good Design of Sphera coffee line, there are a lot of projects that shine in the international panorama design.

From 1997 the acquisition of the brand by Paderno has added professional kitchen tools to the Sambonet's portfolio.

Nel 1856 Giuseppe Sambonet, figlio di un nobiluomo di Vercelli, ha ottenuto – dopo il diploma di Belle Arti – il brevetto di Maestro Orefice e ha costituito la ditta Giuseppe Sambonet, depositando presso la zecca di Torino il punzone con le iniziali "GS". Agli inizi del Novecento la società da lui fondata è stata fornitrice ufficiale di molti nobili, tra cui la Duchessa di Genova ed il Conte di Torino.
Al passo con i tempi in ogni epoca, Sambonet si è distinta per lo spirito evolutivo della propria produzione realizzando, per prima in Italia, un impianto capace di affiancare all'argenteria massiccia quella galvanica.
Già dal 1938, infatti, ha iniziato a mettere a punto sofisticate tecnologie industriali di lavorazione dell'acciaio inossidabile, arrivando all'argentatura dello stesso.
Nel 1947 ha inoltre intrapreso, con tecnologia propria, la produzione di coltelli e lame in acciaio inox. La conquista del mercato internazionale risale al 1956, quando si è aggiudicata – prima su 53 concorrenti – la commessa per l'Hotel Hilton al Cairo, con una linea di vasellame ancora oggi in collezione.
Ha inizio così la grande tradizione di forniture per alberghi e ristoranti stellati di tutto il mondo. A partire dagli anni '60, Sambonet ha avviato un percorso di collaborazioni che avrebbe portato alla nascita di collezioni orientate al design. Roberto Sambonet, in particolare, ha creato collezioni di primaria importanza, come la "Pesciera", il "Center line" e i vassoi "Linea 50", oggi in collezione al MoMA di New York.

Dal Compasso d'Oro ADI ottenuto nel 1994 con la posata Hannah al Good Design e al Wallpaper Design Award per le linee Gio Ponti, passando per il Good Design assegnato a Sphera Holloware, molti sono i progetti che si distinguono nel panorama internazionale del design.

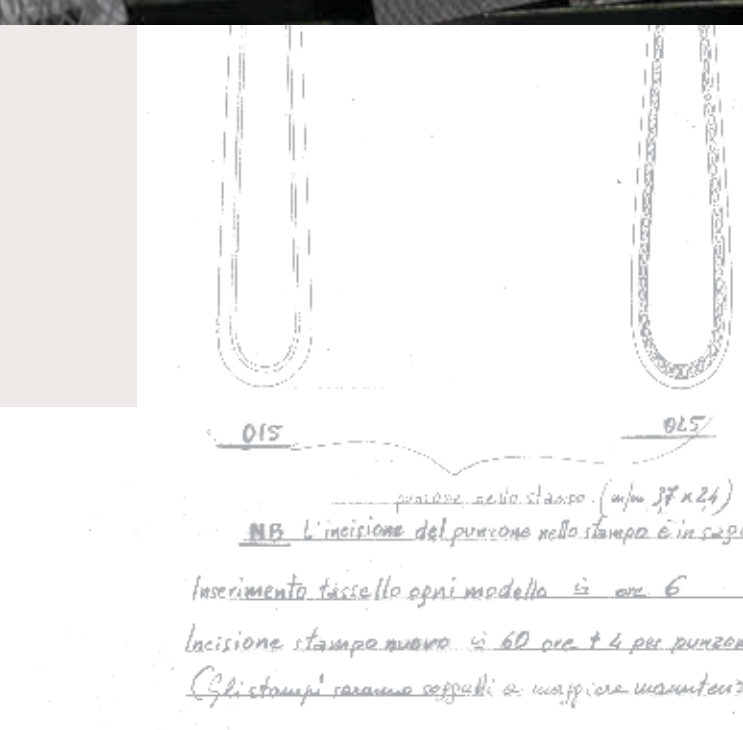

Dal 1997 il brand è stato acquisito da Paderno che, alla sua produzione, ha unito articoli per la cucina professionale.

nickel-silver

The absolute purity of the silver, certification requirements of the stainless steel and nickel silver are what constitute Sambonet's quality silver production. In respect to the traditional plating, the exclusive technique H§P Hard Sambonet Silverplating applied to the products, offers longer durability and resistance to the coating.
The silver plating, done entirely by Sambonet, was developed and perfected over the years thanks to a unique automated galvanic electroplating cycle.
On an international level, the department is now distinguished for size and modernity. Always in step with the times, Sambonet has stood out for its progressive spirit in the production field. It is the first in Italy to have a system capable to add to a massive silverware the electroplating process.
Already by 1938, Sambonet started developing sophisticated industrial technologies to produce stainless steel, making its way to the silver plating process.
All articles are subject to a rigid manual quality check, ensuring excellent work on all finishings and adding to their top notch esthetic design.
Sambonet's silver production is made up of AISI 304 stainless steel or nickel silver, alloy made up of 66% copper, 13% nickel and 21% zinc, embellished with pure silver.

La purezza assoluta dell'argento, i requisiti certificati dell'acciaio e dell'alpacca sono alla base della qualità della produzione argentata Sambonet. Rispetto all'argentatura tradizionale, l'esclusiva tecnica H§P Hard Sambonet Silverplating applicata ai prodotti offre maggior durezza e resistenza al rivestimento.
L'argentatura realizzata internamente è stata sviluppata e finalizzata negli anni grazie a un singolare ciclo di elettrodeposizione galvanica automatizzato.
A livello internazionale il reparto si distingue oggi per dimensioni e modernità.
Al passo con i tempi in ogni epoca, Sambonet si è distinta per lo spirito evolutivo della propria produzione realizzando, per prima in Italia, un impianto capace di affiancare all'argenteria massiccia quella galvanica.
Già dal 1938, infatti, iniziò a mettere a punto sofisticate tecnologie industriali di lavorazione dell'acciaio inossidabile, arrivando all'argentatura dello stesso.
Tutti gli articoli sono soggetti a un rigido e scrupoloso controllo qualità manuale, che ne assicura l'ottima esecuzione della finitura e che concorre alla resa estetica d'altissimo pregio degli stessi.
La produzione argentata Sambonet trae origine da acciaio inox AISI 304 o alpacca, lega costituita da rame al 66%, nikel al 13% e zinco al 21%, impreziositi con argento puro.

Linea Q

Refined, innovative and timeless design characterizes Sambonet style. This entire concept plays with square and rectangular forms made up of interchanging edges and curves. With this line, inspired by minimalism and the surfaces of stainless steel, an extension of articles are introduced using new materials like bamboo. A mixture of cornstarch, coloring, resin and bamboo fibers suitable for contact with food.

Un design raffinato, innovativo e senza tempo che connota lo stile Sambonet. L'intero concept gioca con le forme quadrate e rettangolari, caratterizzate da un alternarsi di spigoli e linee arrotondate. In questa collezione improntata al minimalismo e alla matericità conferita dall'acciaio si affianca un'estensione realizzata con nuovi materiali come il bamboo: una mescola di amido di mais, colorante, resine e fibre di bamboo, idonea al contatto con il cibo.

Seven elements in different shapes, textures and colors generate a catchy scenery giving life to a new buffet concept inspired by the seven musical notes. Alternating lines, flat surfaces, solids and voids, a series of components that, thanks to different heights, lend Opera modularity and the ability to create real architectures on the table. A symphony of geometrical sceneries where the GOLD DIAMOND and ROSE GOLD DIAMOND finishes add value to the solidity of the stainless-steel and to the delicateness of its design. This special processing technique gives the stainless-steel bright shades, and, at the same time, it naturally limits scratches, masks the wear and keeps the items unchanged and shiny over the time.

Sette elementi che, tra forme, texture e colore, compongono un palcoscenico d'effetto per dar vita a un nuovo modo di concepire il buffet, ispirato alle sette note musicali. Mediante l'alternanza di linee, piani, pieni e vuoti, i supporti – disponibili in differenti altezze – aprono Opera alla modularità e alla creazione di vere e proprie architetture in tavola. Una sinfonia di scenografiche geometrie in cui la solidità dell'acciaio inox e la leggerezza del suo design vengono valorizzate dall'esclusiva finitura Diamond, proposta in color ORO e ORO ROSA. Questo speciale processo conferisce al materiale vibranti accenti luminosi e, al contempo, inibisce naturalmente la formazione di graffi, cela gli inevitabili segni di usura e preserva gli oggetti brillanti e inalterati nel tempo.
