

GLASSWARE
DECANTER

Solo per professionisti

IVV presenta una serie di decanter professionali, sviluppati per sommelier professionisti. Nelle caraffe da vino, come in nessun altro prodotto, la forma è una diretta conseguenza della funzione che deve essere svolta: sia che si tratti di un rosso invecchiato, di un bianco strutturato o di uno Champagne, IVV offre al professionista lo strumento giusto per far esprimere ad ogni vino il suo massimo.

For Professionals, only

IVV presents a series of professional decanters, developed for professional sommeliers. In wine decanters, as in no other product, the form is a direct consequence of the function that must be carried out: wheter it's an aged red, white or Champagne, IVV provides the professional with the right tool to make each wine express its maximum.

GLASSWARE

TUMBLERS & GOBLETS

BICCHIERI & CALICI ACQUA

Quality for Professional Use:

The high quality IVV glass is:

- uniquely transparent with shiny reflections
- very resistant and durable
- environmental friendly

**Coloured in the glass mass:**

Drinking in a IVV product is safe, because the colour is given to the product in the glass mass and not with a surface paint, which over time is released into the food and into the liquids we take

Dishwasher Resistance:

Thanks to the colour given in the glass mass, IVV tumblers and goblets are dishwasher resistant
